THE WAY IT WORKS

TAILORMADE

Individual colour and design requirements are a Multi Color Impression specialty. The text and logo fields can be arranged as required.

PRECISION

The laser cuts the ink cartridge with precision and seals the colour fields at the same time. This prevents the contamination of each of the individual colour fields.

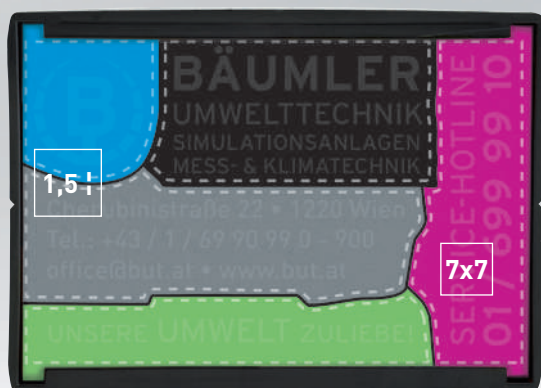

QUALITY

The result is a set of clean impressions to the usual Trodat level of quality.*

*Cartridges can also be inked manually.

ORIGINAL TRODAT PRINTY 4.0 CLIMATE-NEUTRAL. AS STANDARD.

The Original Printy 4.0 impresses not only with its attractive design - it is also climate-neutral, as standard. During the manufacture up to 49%* of CO₂ is saved in comparison to its predecessor. The remaining, unavoidable CO₂ footprint is offset by investing in Gold Standard climate protection projects recommended by the WWF®.

*ECO black and ECO grey. Lower percentage for other colours.

WE ASKED STAMP USERS

We asked users what, in their opinion, makes a good stamp. There were some interesting responses. Thus we incorporated these ideas when we developed the Original Trodat Printy 4.0.

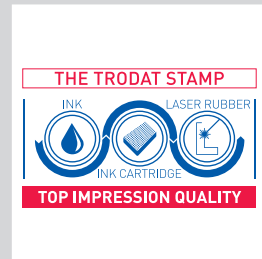

1. Clean replacement of ink cartridge thanks to special grip zone

2. Exact placement of impressions thanks to the panoramic viewing window

3. Lightweight & small, perfect when you are on the move

4. The usage of Trodat materials in combination is guaranteed to have a high-quality impression.

WE ASKED RUBBER STAMP MAKERS

Numerous surveys with rubber stamp makers were carried out to identify what they expect from the ideal stamp. The valuable results have had a significant impact on the development of the Original Trodat Printy 4.0.

1. Simple mounting of text plates thanks to the raised position of the text plate holder

2. Easy to customise! Countless options for your logos and individual prints on the stamp housing

3. Multi-color impressions help to meet your customers demand for differentiation and individuality

4. Convenient detachable index window which is symmetrical with a large grip

TRODAT PREMIUM FLASH

With Trodat's Pre-inked Flash lines you get thousands of crisp and clear impressions, whether you use bold logos or fine lines. In addition they can be re-inked easily for thousands more.

Pre-inked stamps are very popular for large impressions, because the housing of the stamps is relatively small even for stamps with a large imprint area. All Trodat Premium Flash models promote dry cartridge inking concepts for efficient inventory management.

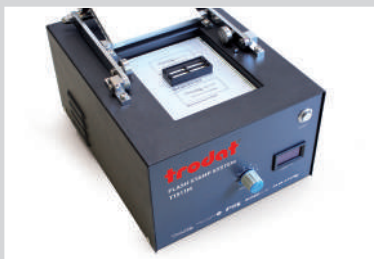

WHAT ARE THE BENEFITS OF MAXLIGHT S-STYLE, PSI E-STYLE AND SUPER SLIM?

Improved Die Box:

Cutting and sealing of foam is done by new laser technology. Therefore no space is wasted, resulting in a larger impression area.

Trodat Flash Machine:

Quick & easy operation – not only foam, but whole die box can be flashed at once.

Convenient Inking:

Fast & clean – no accessory or scale needed. The patented dry cartridge concept allows high inventory flexibility. Trodat Premium Ink migrates under 1h.

1-Step Assembly Maxlight:

The snap-in die box provides the simplest assembling possible.

1-Step Assembly PSI:

The slide-in die box provides the simplest assembling possible.

No Assembling Steps Super Slim:

Super Slim can be flashed and inked as a whole – no extra die box needed. Only the index card needs to be added as always.

UTYPIA WEBSHOP

THE TRODAT ADDED VALUE PRINCIPLE

UTYPIA BUSINESS 6

uTypia Business 6 is the all-round online shop solution with a particular focus on B2B. Many functionalities of the shop improve the ordering process for your large corporate customers. Custom-specific rates can be offered relating to available products, prices, discounts, delivery and payment. Your corporate design can be incorporated into your personalised template.

A great feature means that the store can be easily integrated into other systems, such as your customers' e-procurement systems (e.g., SAP, Oracle, Ariba) or marketplaces. Also integrations into other shop systems (shop-in-shop integrations) are possible.

UTYPIA CONSUMERNEXT

uTypia Consumernext is our new online shop solution paying particular attention to the requirements of private customers, small businesses and home offices. This makes ordering customisable products simple even for inexperienced users, with the attractive design of the site helping to make customers feel comfortable during the ordering process.

The attractive, modern shop design gives a professional image, the shop is technically perfectly prepared for search engine optimization (SEO). The basis of this shop solution is Magento, one of the worldwide best known online shopsystems; for configuring the layout of the personalizable products, the uTypia software is perfectly integrated. This combines the advantages of both systems and provides the best possible solution in the B2C segment for personalisable products.

INTEGRATION

uTypia has a great deal of knowledge in integrating itself into other systems. It can be combined with all popular e-procurement systems. This makes the process of ordering customised products more simple, with all parties involved saving time and money. In addition shop-in-shop integrations are increasingly in demand, which is easily possible for sure. uTypia can be integrated so that the user will be guided to uTypia for just the customisation of a product (e.g., stamp layout).

In addition - NEW- you will be offered an extension for Magento and the plug-in for Shopware and also Prestashop. Thus, the existing functionalities of Magento/Shopware/Prestashop can be optimally combined with the customisation options of uTypia.

UTYPIA VOUCHER

The uTypia voucher solution is a voucher solution that allows your customers to set the individual layout for the already bought product online. The customer purchases for example a stamp in a regular store and then designs the personalised text plate online using the voucher number. Here, the user can edit and format text, position a frame, upload and precisely position logos and review all changes in a layout preview.

You save the typesetting and the prepaid postage for the "redemption" post card and get clearly readable address details.
